Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Saturday 09 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Frosty start today, then cold but dry and mainly sunny.

Today:
Starting with a widespread frost, and icy stretches likely on untreated surfaces, leading to a dry and largely sunny day. However, later today cloud will increase from the north. Feeling cold, with frost and ice lingering in shaded areas. Maximum temperature 3 deg C (37 deg F).

Tonight:
Dry but largely cloudy at first, with perhaps some cloud breaks for southern areas and localised frost. Remaining cloudy overnight with outbreaks of rain arriving, along with widespread hill fog. Minimum temperature -1 deg C (30 deg F).

Sunday:
Cloudy across the Pennines with hill fog and outbreaks of light rain and drizzle. Elsewhere gradually becoming dry, with perhaps some bright spells developing. Breezy and less cold everywhere. Maximum temperature 7 deg C (45 deg F).

Outlook for Monday to Wednesday:
Monday windy, milder with persistent rain across the Pennines, patchy rain elsewhere. Tuesday probably dry with bright spells, colder again with light winds. Possibly rain for Wednesday, with hill snow.
